1.0 PURPOSE

To establish the Health, Safety and Environment (HSE) Training requirements and methodology for Idd El-Shargi Asset.

2.0 SCOPE AND APPLICABILITY

This Procedure is applicable to all Employees, Contractors, Subcontractor and Visitors to QatarEnergy-IS sites.

3.0 ROLES AND RESPONSIBILITIES

HSE MANAGER

- Ensure that HSE Training KPI's are established and monitored through Monthly and Quarterly Management meetings.

LEAD, HSE SYSTEMS

- Monitor HSE training and present the status in monthly & quarterly meetings.
- Ensure that Employees and Manpower Contractors maintain their training requirements as per this procedure.
- Maintain 'Activity and Positional Based HSE Training Matrix'.
- Develop, maintain, and evaluate HSE Training programs, based on applicable standards and Industry best practices.

SR. SAFETY OFFICER

- Ensure that High and Medium Risk Contractors maintain compliance with the requirements of this procedure, through HSE Score Card Program.
- Periodically review HSE training requirements for their department's personnel.

SUPERVISOR

- Assign training to the new joiner based on Positional based Matrix, through LMS.
- Removal of assigned training based on training applicability in LMS.

EMPLOYEES

- Participate in and complete the assigned training.
- Attend the Safety Induction.
- Complete the recurring / refresher training before the due date.

	HSE TRAINING PROCEDURE DOC NO: IS-HSE-PRC-002 REV. 03
---	---

4.0 PROCEDURAL STEPS

4.1 TRAINING REQUIREMENT

- HSE activity based and positional based Training requirements Matrix are identified based in Corporate Standard for Occupational Health, Safety, Environment and Quality (HSEQ) Training Management (CORP-HSE-STD-024)
- Idd El Shargi HSE Activity Based and Positional Based Training Matrix approved by the respective Department Manager.
[K:\HSE\7. HSE Systems\2. Training\Training\Training Matrix\ Positional Based Matrics \(BC\).](K:\HSE\7. HSE Systems\2. Training\Training\Training Matrix\ Positional Based Matrics (BC).)
[K:\HSE\7. HSE Systems\2. Training\Training\Training Matrix\Activity Based Matrix \(BC\).xlsx](K:\HSE\7. HSE Systems\2. Training\Training\Training Matrix\Activity Based Matrix (BC).xlsx)
- Each Employee and his Supervisor shall ensure that the required training is completed in a timely manner.
- The required training shall be completed prior to start of the task/ activity.

4.2 LMS MODULE

The Learning Module on Employee Central (also called, LMS) is an interactive database application for learning requirements. It allows to:

- Search for training courses in LMS Libraries.
- Register for scheduled training sessions.
- Raise request for a training session if not already scheduled.
- Search and complete eLearning courses directly from LMS portal.
- Browse learning history.
- Supervise the learning of your subordinates.

LMS proceed as follows: QatarEnergy Connect > People Portal > Employee Central > Learning.

4.3 MANDATORY HSE TRAINING FOR VISITING OFFSHORE

- The following are the mandatory HSE training for visiting offshore:
 - T-BOSIET / T-FOET / BOSIET / FOET (OPITO approved)
 - H2S/BA (OPITO approved)
- Personnel requiring driving a vehicle in Halul Island shall have a valid Qatar Driving License.
- Refer Appendix A for QatarEnergy-IS Offshore Travel Checklist
- Refer to Appendix B for PPE requirement at offshore Site.

4.4 e-LEARNING (WEB-BASED)

- a) Certain e-Learning training are delivered via electronic media. The course schedule is available in LMS. Personnel who have been assigned these courses

	HSE TRAINING PROCEDURE DOC NO: IS-HSE-PRC-002 REV. 03
---	---

will be alerted through the LMS and can complete the training online. Training Completion certificate is generated through LMS after successful completion.

- b) Some IS inhouse HSE awareness session are delivered via “Microsoft Forms” such as HSE Risk Management. Email notifications shall be sent by HSE Systems Administrator to the nominated participants.

4.5 GENERAL

- a) Training should be booked much in advance for approval process and cut-off date.
b) For new employees the training needs shall be identified based on positional based matrix, by their Supervisor in LMS.

4.6 HSE INDUCTION

- (a) HSE Induction at offshore sites is provided to all personnel arriving at offshore. The records are maintained at the offshore by the Medic / HLO.
(b) HSE Induction for Onshore / Doha personnel is provided by QatarEnergy Facility Management department.

4.7 HSE CAMPAIGN AND AWARENESS SESSIONS

HSE Campaign and awareness sessions such as HAT are delivered by IS HSE team at offshore location based on the operational requirements and incident lesson learned.

4.8 HSE TRAINING TO THE CONTRACTOR

- a) The Contract Holder (Job Officer) shall specify mandatory HSE training and any additional HSE training required for the Contractors in the Tender and Contract documents.
b) The Contractor shall maintain training record for his personnel and shall submit to QatarEnergy – IS, when requested.
c) Medium and High-risk contractors shall report the training status through monthly HSE Score Card System.
d) The following steps shall be followed for HSE training requested by the manpower contractor/s:
- Contractor to submit nominations to the Contract Holder for review and endorsement by QatarEnergy-IS.
 - Approval by Department Manager
 - Department Focal point shall raise SDS request for EX No and activation.
 - Departmental Focal point shall submit the training request to IS HSE Training Focal point for further processing.

	HSE TRAINING PROCEDURE DOC NO: IS-HSE-PRC-002 REV. 03
---	--

4.9 CHANGE IN THE ACTIVITY / POSITION - BASED TRAINING

- Any change in the required training as per the Training matrix shall be done in LMS by the Supervisor.
