---	--

1.0 PURPOSE

This Procedure is to provide a mechanism which ensures that IS Contractors have acceptable programs for managing Health, Safety and Environment (HSE) and defines the process for Contractor HSE performance review.

2.0 SCOPE AND APPLICABILITY

The Procedure applies to all Contractors and Sub-Contractors who provide personnel performing work activities at Idd El Shargi Facilities.

3.0 ROLES AND RESPONSIBILITIES

HEAD, HSE OPERATIONS

Defines the Contractor HSE Management requirements and is responsible for the following:

- Contractor HSE Audits.
- Evaluates tender/contract documentation HSE aspects.
- Reviews Contractor HSE Performance and Incident history.
- Confirms Contractor Emergency Response Plans.
- Maintains records of Contractor HSE performance and suitability.
- Monitors and evaluating Contractor HSE performance.
- Produces Contract HSE Close Out Reports.
- Supports the Contract Proponent and Contractor with HSE expertise.

CONTRACT PROPONENT

The QatarEnergy–IS focal point, a discipline specialist who is responsible for the following;

- Selects Contract bidders based on qualification and experience.
- Includes all necessary QatarEnergy–IS Contractor HSE requirements within the tender request.
- Ensures the Contractor HSE capabilities are assessed in conjunction with the HSE Representative during the pre-award evaluation process.
- Coordinates and documents a kick-off meeting.
- Reviews, comments and signs off on Contractor HSE close out reports.
- Contractor HSE Interface, leading the Contractor in HSE performance improvement.
- Ensures the HSE questionnaire response and associated documentation are maintained as part of the contract file.

DOCUMENT CONTROL CENTRE (DCC)

- Updates Contractor in a timely manner on any relevant changes to the HSE Policies and Procedures.

	IS CONTRACTOR HSE MANAGEMENT PROCEDURE DOC NO: IS-HSE-PRC-009 REV. 02
---	--

4.0 PROCEDURAL STEPS

4.1 GENERAL

Contractors shall be selected on the basis of their HSE management programs and performance; these aspects of a Contractor shall be evaluated and documented by the contract proponent prior to award.

4.2 REQUEST FOR INFORMATION

The Contract Proponent shall be responsible for ensuring Contractor HSE Questionnaire Appendix A (IS-HSE-PRC-009-A), Contractor HSE Requirements Procedure (IS-HSE-PRC-010) and relevant QatarEnergy-IS Policies, Procedures and Guidelines are included in the Invitation to Tender. The bidder must submit a completed questionnaire IS-HSE-PRC-009-A with supporting evidence as part of the Request for Information (RFI) submission to allow for HSE technical evaluation.

4.3 TECHNICAL EVALUATION

The Head, HSE Operations shall assign resources to assist contract proponents with the technical evaluation process by assigning an HSE Representative to coordinate confirmation of the Contractor HSE management programs and performance suitability. HSE audits shall comply with Audit Procedure (IS-FOP-PRC-700).

The HSE Representative shall ensure the technical evaluation qualification process considers the following as applicable;

- Review of IS-HSE-PRC-009-A and supporting evidence.
- Result of HSE Audit.
- Review of previous HSE close out reports.
- Review of previous HSE Audit reports.
- Review of Contractor Method Statement and Risk Assessments.

The HSE Representative shall sign off the Technical Evaluation Summary form on behalf of HSE, confirming bidder qualification.

4.4 KICK OFF MEETING

The Contract Proponent shall call for and chair a Kick-Off Meeting (KOM) as soon as practicable after the contract has been awarded. The Contract Proponent is responsible to ensure that minutes of meeting are documented. The HSE Representative shall present to the Contractor the minimum QatarEnergy-IS HSE Expectations. The Contract Proponent may request a more detailed post-award HSE audit as the base line for Integration Planning. This would ensure any shortfalls in compliance with QatarEnergy-IS HSE requirements or expectations are identified and corrective action planned prior to start of work. Post-Award HSE audits shall comply with Audit Procedure (IS-FOP-PRC-700) audit requirements.

4.5 INTEGRATION PLANNING

The Integration Planning process shall consist of the following elements:

- Contractor HSE Plan.
- Interface meeting schedule.
- Review of method statement and risk assessment.
- Emergency Response Plan bridging documents.
- HSE Performance reporting (HSE Scorecard).
- QatarEnergy-IS HSE Audit schedule

	IS CONTRACTOR HSE MANAGEMENT PROCEDURE DOC NO: IS-HSE-PRC-009 REV. 02
---	--

4.5.1 Interface Document

The Contractor HSE Plan (IS-HSE-PRC-009-B) shall document the Contractors understanding of QatarEnergy-IS minimum HSE expectations and requirements of Contractor HSE requirements (IS-HSE-PRC-010).

The Contractor HSE Plan shall be reviewed and approved by the designated QatarEnergy-IS HSE representative and signed off by the Contract Proponent, Contractor Focal point and QatarEnergy-IS HSE Representative as a minimum. The Contractor is required to submit the plan for review within 30 days of Contract award.

4.6 REQUIREMENTS POST-START

4.6.1 Contractor HSE Performance Review

QatarEnergy-IS shall operate an HSE performance review program named the “Contractor HSE Scorecard” where performance is scored and published monthly. The HSE Contractor Scorecard program shall rate Contractor HSE performance on the following key elements and components, which are amended from time to time.

The definition of each performance element and the associated weighted scoring is detailed within Appendix D (HSE Scorecard Definitions). Also refer to Appendix E (HSE Scorecard Monthly Report – Example).

4.6.2 Contractor Interface Meetings

In order to enhance Contractor HSE performance, manage HSE expectations and communicate QatarEnergy-IS HSE initiatives, lessons learned and feedback on Contractor HSE Performance, the Contract proponent along with the HSE Representative shall hold quarterly interface meetings (as a minimum) with ALL High-Risk Contractors and/or HSE Scorecard participants.

The Interface meetings shall address:

- HSE Scorecard performance.
- Annual HSE improvement Plan/Objectives.
- Incidents & Lessons learned.
- Audit/CAR Status

Ad-hoc meetings may be called on the request of the Contract proponent to discuss issues such as Contractor being placed on the HSE Scorecard watch list or to review incident investigation, audit results or other significant HSE issues.

4.7 CONTRACTOR HSE AUDITS

Contractor HSE audits shall be conducted as per the requirements of QatarEnergy-IS Audit Procedure (IS-FOP-PRC-700). An annual HSE audit schedule shall be produced based on a criticality assessment, previous audit findings and HSE performance. As a minimum all Medium & High-Risk Contractors shall be audited annually. This requirement comes in alignment with Corporate Procedure for Enhancing Contractors' HSE Performance – CORP-SAF-PRC-006 using Seven Star Audit Methodology.

Corrective actions from worksite HSE audits, inspections and safety observations on QatarEnergy-IS worksites and facilities shall be addressed at the worksite and tracked via QatarEnergy-IS electronic HSE databases to closure.

	IS CONTRACTOR HSE MANAGEMENT PROCEDURE DOC NO: IS-HSE-PRC-009 REV. 02
---	--

4.8 CONTRACT HSE CLOSE-OUT REPORT

The Head, HSE Operations shall assign an HSE Representative to document a Contract HSE Close-out Report Appendix C (IS-HSE-PRC-009-C) upon the completion of each contract. The report shall summarize the Contractor's HSE performance. In addition to this, the contractor shall also submit QatarEnergy HSE Close-Out and Site Restoration Certificate

The HSE Manager shall summarize the recommendation whether to retain the Contractor on the QatarEnergy-IS approved vendors list.

APPENDIX

APPENDIX A - CONTRACTOR HSE QUESTIONNAIRE (IS-HSE-PRC-009-A)

Pre-Qualification (General)	Comment	Attachment
PREQ-HSE-001: Does the Supplier intend to provide services and materials where the Supplier's personnel (including subcontractors) will be exposed to/introduce High Risk HSE hazards inside our facilities or third-party facilities on behalf of QatarEnergy-IS ? For example: Oilfield Services, Construction, Maintenance, Operation, Repairs, Installation, Commissioning, Startups, Transportation within QatarEnergy well sites, plants, offices, facilities, etc.	Submit detail of intended services/work scope	YES
PREQ-HSE-003: Are all written documents pertaining to this questionnaire and company processes available for Owner Client review and/or auditing?		Not required
Pre-Qualification (Management System)	Comment	Attachment
PREQ-HSE-004: Does your company have an identified HSE professional responsible for HSE management system administration and implementation?	Submit copy of HSE organization chart	YES
PREQ-HSE-005: Does your company have a CERTIFIED HSE Management system in place (ISO 45001:2018 and ISO 14001:2015)?	Submit copy of relevant certification	YES
PREQ-HSE-006: Does your company have an HSE management system in place that includes a Manual with a clearly written HSE policy endorsed by upper management?	Submit copy of the index/table of contents and an executive summary	YES
Pre-Qualification (Policy & Procedure)	Comment	Attachment
PREQ-HSE-007: Does your company have a written Personal Protective Equipment Assessment program/policy?	Submit copy of relevant policy	YES
PREQ-HSE-008: Does your company have a written policy regarding drug and alcohol	Submit copy of relevant policy	YES

	IS CONTRACTOR HSE MANAGEMENT PROCEDURE DOC NO: IS-HSE-PRC-009		REV. 02
screening or testing of your employees that includes pre-employment, random, for cause, and post- accident testing?			
PREQ-HSE-008: Does your company have a Medical Fitness program/policy and perform pre-employment physical exams?	Submit copy of relevant policy	YES	
PREQ-HSE-009: Does your company have a Short Service Employee (SSE) policy that identifies new employees or experienced employees new to your company or new in their position?	Submit copy of relevant policy	YES	
Pre-Qualification (Management Interface)	Comment	Attachment	
PREQ-HSE-010: Provide the Contact information for the person within Supplier's company responsible for Health, Safety and Environmental Management (Full name, position, phone, email). This person may be contacted for an on-site audit and/or to validate the responses to this section.		Not required	
PREQ-HSE-011: Does your company have an HSE meeting program/policy, which details the frequency of formal safety meetings?	Submit copy of relevant policy	YES	
PREQ-HSE-012: Does managers and supervisors participate in employee safety meetings?	Submit evidence	YES	
PREQ-HSE-013: Does your company communicate HSE performance, KPI's and goals/objectives?	Submit example of communication	YES	
PREQ-HSE-014: Does your company have a safety incentive program?	Submit copy of relevant policy	YES	
Pre-Qualification (Hazard Identification)	Comment	Attachment	
PREQ-HSE-015: Does your company have a written requirement for on-site Emergency Action/Response Plans?	Submit copy of relevant policy and an example of an onsite Emergency Response Plan	YES	
PREQ-HSE-016: Does your company have a written Hazard Identification/Risk Assessment program/policy?	Submit copy of relevant policy	YES	

	IS CONTRACTOR HSE MANAGEMENT PROCEDURE DOC NO: IS-HSE-PRC-009	REV. 02
---	--	----------------

PREQ-HSE-017: Does your company have a written Confined Space program/policy?	Submit copy of relevant policy	YES
PREQ-HSE-018: Does your company have a written Hazard Communication program/policy?	Submit copy of relevant policy	YES
PREQ-HSE-019: Does your company have a written Lockout/Tagout program/policy?	Submit copy of relevant policy	YES
PREQ-HSE-020: Does your company hold onsite (tailgate/toolbox/pre-tour/pre-job/pre-start) safety meetings?	Submit example	YES
PREQ-HSE-021: Are you aware of any asbestos containing material on any of your barges, installations, vessels, premises etc?	If YES, submit an asbestos survey report	YES (If applicable)
PREQ-HSE-022: Do you have an asbestos management system in place?	Submit copy of relevant policy	YES
PREQ-HSE-023: Does your company maintain the applicable inspection and maintenance certification records for operating equipment?		Not required
Pre-Qualification (Training & Competence)	Comment	Attachment
PREQ-HSE-024: Do you provide safety orientation to new employees before allowing them to start work?	Submit copy of relevant policy and example of completed induction/orientation form	YES
PREQ-HSE-025: Is your company's Substance Abuse Awareness employee training documented?	Submit example	YES
PREQ-HSE-026: Does your company have quantifiable training requirements (job specific) for new employees or experienced employees new to their position?	Submit example	YES
PREQ-HSE-027: Do your company's employees read, write, and understand English such that they can perform their job tasks safely without an interpreter?	If YES submit relevant policy and example of verification of proficiency level	YES

	IS CONTRACTOR HSE MANAGEMENT PROCEDURE DOC NO: IS-HSE-PRC-009 REV. 02

2. CONTRACTOR CLOSE OUT REPORT - GUIDANCE

PURPOSE

The purpose of the contract close-out report is to conduct an evaluation of the Contractor HSE performance, provide feedback to the proponent, as well as to provide QatarEnergy-IS with HSE performance reference data for future bidder HSE evaluations.

EXECUTIVE SUMMARY

Note: This section should contain a high-level summary of the project work scopes, Contractor performance and integration with QatarEnergy-IS HSE objectives and expectations.

WORK SCOPE

Note: This section should contain a detailed summary of contract work scope, location, worksite interfaces, etc.

HSE PERFORMANCE

Note: This section should contain a summary of Contractor HSE performance with the following as a minimum.

	IS CONTRACTOR HSE MANAGEMENT PROCEDURE DOC NO: IS-HSE-PRC-009 REV. 02
---	--

Incidents Reported	Year To Date	Contract Duration
Near Misses		
Environmental release		
Property Damage		
Fire/Explosion		
Vehicle		
First aid cases		
Incident Statistics	Year To Date	Contract Duration
Manhours worked		
Recordable injuries/Illnesses		
No of days lost time and restricted duty		
Number of fatalities		
Total Recordable Incident Rate (TRIR)		
Lost Time Incident Rate (LTIR)		
Severity Rate		
Recordable incident free days		

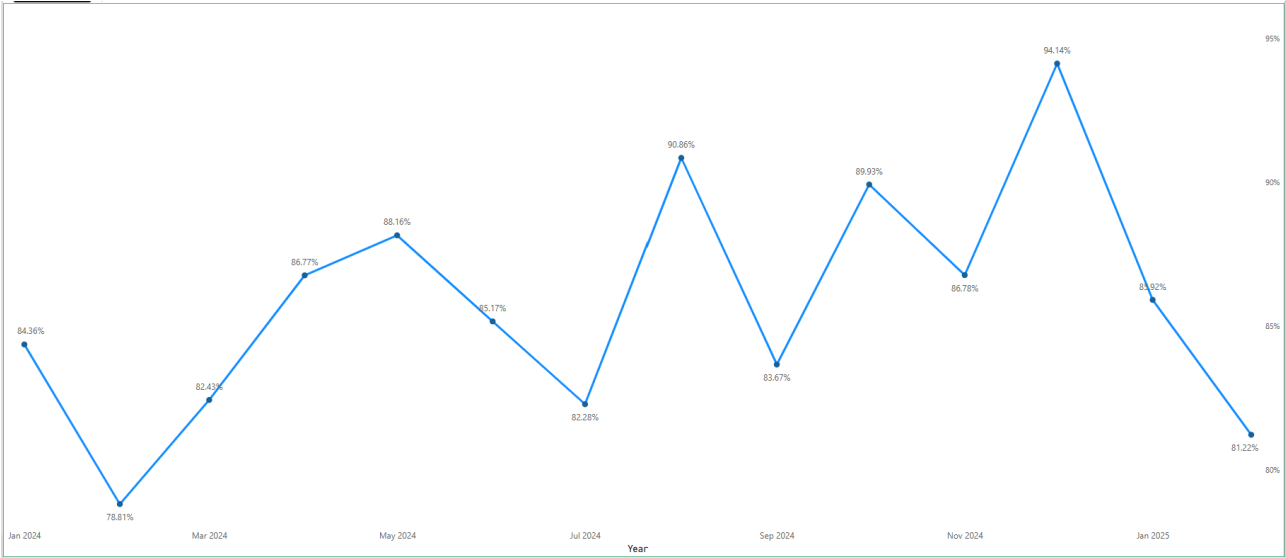

*Incident rates calculated at $x \frac{1,000,000}{\text{Total hours Worked}}$

HSE Statistics

Note: Describe here the final Contractor cumulative HSE statistics report (i.e. combined Daily/Weekly/Monthly report).

3. HSE Contractor Scorecard

Note: Attach here the Contractor QatarEnergy-IS monthly rolling scorecard performance supported with graphical data (example attached).

Contractor HSE Audits

Note: Provide a summary of Contractor HSE Audit results (number of Corrective Actions, number of Observations or number of Opportunities for improvement, etc.) with detail on status of Contractor HSE audit findings.

INCIDENT SUMMARY

Note: This section should contain a summary of Contractor incidents, highlighting investigation report findings and corrective action close out status.

Lessons Learned

Note: Summarize here opportunities for improvement which could be identified pre-mobilization for future contracts (similar work scopes, Contractor specific).
