	WORKSITE SAFETY INSPECTION PROCEDURE DOC NO: IS-HSE-PRC-003 REV. 00
---	--

1.0 PURPOSE

The purpose of this procedure is to provide a formalized and uniform approach for establishing an efficient system to conduct Worksite Safety Inspections, hereinafter referred as 'Inspections' at Idd El-Shargi (IS) Offshore fields. The intention of this document is to ensure a standardized system to ensure continual improvement in HSE culture at the worksite and set the requirements for effective Inspection and in turn mitigate the escalation of the worksite safety risk.

2.0 SCOPE AND APPLICABILITY

This procedure applies to Idd El-Shargi operated facilities including Production Platforms, Well-head jackets, Halul-PWHF, Barges and vessels in IS field. This includes QatarEnergy Employees, Contractor and Subcontractors.

3.0 ROLES AND RESPONSIBILITIES

HEAD, HSE OPERATIONS

- Overall custodian of Inspection process.
- Review and monitors Inspection trend analysis on monthly basis.
- Approves new / additional type of Inspections which is not captured in Annual Worksite Safety Inspection Schedule herein referred as 'Schedule'.

SITE IN CHARGE / OIS

- Approves Schedule and the revisions.
- Guide and support the action item close-out in timely manner.
- Advise on additional items to be included in the current checklist.
- Suggest new type of Inspection.
- Appoint Assigned Inspection Personnel considering the competence.
- Approve delegate of Assigned Personnel, based on the competency to conduct the relevant Inspection.
- Communicate annual Schedule to all relevant personnel through e-mail before the start of each year and whenever there is any change.

SENIOR SAFETY OFFICER

- Prepares the Schedule.
- Monitor compliance with the Schedule.
- Update Inspection check list based on the incidents, Management Directives, Risk Assessments etc.
- Monitors follow-up on any action items.
- Control in iAuditor software used for Inspections.

SITE SAFETY OFFICER

- Conduct allocated Inspections as per the Schedule and Adhoc Inspections, as required.
- Site monitoring of Inspections conducted by Assigned Inspection Personnel.

	WORKSITE SAFETY INSPECTION PROCEDURE DOC NO: IS-HSE-PRC-003 REV. 00
---	--

- c. Follow-up on the actions till the closure and close action item after thorough review. Consult Site in charge/ OIS, if required.
- d. Immediately Report about critical Inspection findings to Site in charge/ OIS and Sr. Safety Officer in in any form of available communication.
- e. Present the summary of the Inspections in the daily Operations meeting.

ASSIGNED INSPECTION PERSONNEL

- a. Conduct Inspections as per Schedule and Adhoc Inspections.
- b. Delegate Inspections to a competent person, in case of operational constraints.
- c. Provide inputs, status, and findings in iAuditor software / tablet.
- d. Report any critical Inspection findings to Site Safety Officer, in any form of available communication.

OCCUPATIONAL HEALTH & PARAMEDIC (OHP)

- a. Conducts on-site health and hygiene inspections.
- b. Informs Camp Boss of any deficiencies and work requests needed to correct them.
- c. Follows up any health or hygiene deficiencies and report deficiencies to the Site In charge/ OIS.

INDUSTRIAL HYGIENIST (IH)

- a. Reviews Health and Hygiene Inspection reports and make recommendations when specific occupational health guidance is needed or requested, for deficiencies identified in the health and hygiene reports from production platforms and accommodation barges.
- b. Follow-up on Correction / Corrective actions related to Health and Hygiene Inspection for the close-out.

4.0 PROCEDURAL STEPS

4.1 PLANNING

- a) By 1st December of the preceding year, Sr. Safety Officer prepares draft Annual Schedule and circulate to site Safety officers, Site In-charge, OIS and other relevant persons. The annual Schedule shall be prepared for all relevant IS Location, as admissible. If new entity comes in IS field the Schedule shall be updated.
- b) Based on the inputs, Sr. Safety Officer finalises the annual Schedule and submits to Site in charge/ OIS for approval. The approval shall be obtained 31st Dec of the year.
- c) Once approved, the Schedule for all the relevant location shall be uploaded in K drive. PS-1 Schedule shall be displayed on the Notice board near OIS office in PS-1Q.
- d) 2024 Inspection Schedule Template for PS-1 is attached at Appendix 3. The Template can be modified based on the requirements and effectiveness after approval from OIS.

	WORKSITE SAFETY INSPECTION PROCEDURE DOC NO: IS-HSE-PRC-003 REV. 00
---	--

4.2 CHECKLIST

- a) All applicable and valid Inspection checklists shall be uploaded by Sr. Safety Officer in iAuditor software tablets. These tablets shall be certified for use in Hazardous area Zone -1.
- b) The checklist can be modified / updated by Sr. Safety Officer based on incidents, Management directives, Risk Assessments, audit findings, Safety observation cards inputs, feedback from the site personnel etc. The Site In charge / OIS can be consulted in this reference. Access shall be provided to Assigned Inspection Personnel / delegate in iAuditor for conducting the Inspections. The current list of Inspections is attached as Annexure - 4

4.3 EXECUTION

- a) The relevant Assigned Inspection Person shall conduct Inspections by visiting relevant location and shall conduct the Inspection using checklists provided in iAuditor tablet. The Assigned Inspection Person shall wear all the required IS-HSE-PRC-005. Formal approval, if required for visiting the location shall be obtained from site in charge / OIS.
- b) Inspections shall immediately be stopped on hearing Emergency alarm and appropriate emergency response actions shall be followed.

4.4 REPORTING

- a) The Inspection result shall be entered in iAuditor by Assigned Inspection Person and shall immediately communicate any critical finding communicated to site safety Officer.
- b) In case of non-availability of iAuditor due to network or other technical issue, the Assigned Person shall conduct Inspection through manual checklist and shall submit the Inspection report to site Safety officer for further action, as required.

4.5 CORRECTION / CORRECTIVE ACTIONS

- a) Correction / Corrective Actions identified during the Inspection shall be communicated to relevant persons by Assigned Inspection Person through iAuditor Notification or through the email.
- b) Immediate interim correction / corrective action on any critical unsafe act/condition which is witnessed during the inspection shall be done Assigned Inspection Person. This includes immediate stoppage of any work that may lead to Incident related to damage or personnel injury.
- c) The critical findings shall be immediately reported by Assigned Inspection person to site Safety Officer, for further actions.
- d) The site Safety Officer shall follow-up on the actions till the closure after thorough review. The site safety officer may Consult Site in charge/ OIS, if required on the closure of Correction/ Corrective actions.
- e) The target date extension for correction / corrective action can only be done by Site In- charge / OIS after review and assessing the risk due this extension.

	WORKSITE SAFETY INSPECTION PROCEDURE DOC NO: IS-HSE-PRC-003 REV. 00
---	--

4.6 ADDING NEW TYPE OF INSPECTION

- Request for adding new type of Inspection can be raised by any Personnel within the IS Asset to Sr. Safety Officer.
- The draft check list shall be circulated for review to site Safety officers, Site In charges, OIS and relevant persons. The comment shall be appropriately resolved, and final checklist shall be approved by Head, Operation HSE before uploading in iAuditor for execution and conducting Inspections.

4.7 TRAINING / AWARENESS

The site Safety Officer shall conduct initial and periodic awareness session for the Assigned Inspection Personnel on the requirements of this procedure.
